MASSACHUSETTS MURDER CASE GOES TO SUPREME COURT

torney John J. Higgins will go to Washington this week to represent the State of Massachusetts at the hearing before the supreme court of the United States on the appeal in the Chester S. Jordan murder case. Jordan was convicted of the murder of his wife in Somerville in September, 1908, and for nearly four years he has been confined in the Cambridge jail awaiting the disposition of his case by the higher courts. The murder was one of the most gruesome crimes with which the Boston police ever had to deal. Jordan's victim was his wife, Honorah Johdan, a vaudeville actress. In a jealous quarrel Jordan killed the woman in their home. Then he went out and bought a butcher's knife and a hack saw, The House passed the wool bill by with which he dismembered the body legs. Three times governor of Tennessee, congressman and U.S. senator, he made good everywhere. Gov. Haskell has made one bad blunder at the outset of his campaign for the senate by sending broadcast over the state an a tack on Senator Owen in which he reproduces a half page from the Muskogee Phoenix showing a picture of Mrs. Owen and some comments by the society editor of the paper relative to her popularity at Washington. Whe h. er one likes Owen or not this thing of dragging his wife into the dirt and slime of politics is not going to appeal to the people of Oklahoma a little bit. To say the least of it is exceedingly coarse. Although that might work all right in Ohio politics, all Southern gentlemen have too much respect for ladies to thus attempt to cast a slur on a political opponent on the ground that his wife is popular in Washington society.

When the blood becomes infected with the virus of Contagious Blood Poison, the symptoms are soon manifested. The mouth and throat ulcerate. copper-colored spots appear, a red rash breaks out, the hair begins to come out, and usually sores and ulcers show themselves on different parts of the body. At the first sign of the disease S. S. S. should be taken, for the trouble is too powerful and dangerous to trifle with. If allowed to run on the tendency is to work down and attack the bones and nerves, and sometimes it makes a complete physical wreck of the sufferer. The disease can make no such headway if S. S. S. is commenced and used according to directions; its progress can be stopped, the poison removed, and health preserved. S.S.S. goes into the blood and removes the insidious virus, cleanses the circulation and makes a complete and permanent cure by driving out the cause. S. S. S. quickly takes effect on the blood, and gradually the symptoms disappear, the health is improved, the skin cleared of all spots, sores and blemishes, and when S. S. S. has thoroughly purified the circulation no trace of the disease is left. S. S.
